I am open to interesting projects to solve problems

**Over 48 years of experience
I make computer systems run great !!!
Tell me about your problems**

This is a very condensed version of my resume (most people don't want to view a lot of details). Actually, a resume only tells you what I have done – You need to know **“What can I do for you today”** !!!

I have a passion of supporting Windows and Mainframe computer systems. I not only develop & support computer systems – BUT – I also streamline office procedures.

May 1976
Present

COMPUTER CONTRACTOR
Part-Time
For many companies

Full computer support as needed.

July 2021
Present

COMPUTER CONTRACTOR
Small Temporary Projects

ABBTech – Replace, Upgrade, Re-cable 25 Windows Virtual PCs.
I was given 3-days to complete this project – I completed in 2-days.

KForce – Packed up computers & equipment at 3 sites.
I was given 6-days to complete this project – I completed in 4-days.

Yes – I know I could have made more money – BUT – I am not one to waste time !!!

September 2019
November 2020

COMPUTER CONTRACTOR
Full-Time Temporary Support

US 2020 Census IT Local Office Staff & Field Support

Hardware: Office DeskTop PCs, LapTop PCs, iPads & iPhones
Operating System: Windows10
Software Systems: Microsoft Office 365 & US Census proprietary

Team Support of IT Systems for the US 2020 Census in
NH, VT, ME & Western MA

May 1979
October 1989

IT DIRECTOR / SYSTEMS ANALYST / PROGRAMMER
Concord School District
Concord, NH

(Best Position)

Hardware: UNISYS mainframes B1865 & B1990
Operating Systems: MCP II
Languages: JCL, Cobol, NDL
File Structures: ISAM, RANDOM, SEQUENTIAL
Applications: On-line & Batch, Payroll & Accounting,
Custom Education Administration
Developed & Maintained

- o Managed total operations of a mainframe data processing center including:
System / data back-up and recovery, user training, system &
user documentation.

- o Converted databases from NCR to Unisys.
- o Major upgrade and computer conversion from one Unisys system to another Unisys system that improved productivity by four and saved space and cooling needs.

- o Selected / installed / maintained / troubleshoot 100+ node data network, terminals printers and related equipment at 12 sites.

- o Select / modify / develop Cobol application packages for personnel, payroll, budget, accounting, student records and scheduling including:

Converted batch payroll system to on-line.

Develop interface programs between payroll and budget applications saving many hours of reentry per week. Automate procedures for retroactive pay, pay increases and expected budget cost increases for new budget year.

My very BEST career position because I was FREE to solve problems completely (Until budget cuts – Oh, well).

My Son-In-Laws helped me to dismantle and move this Unisys Mainframe to my basement. I am sure you can in vision the power & A/C needed. It was not long that I realized that was not a school district – SO – I dismantled again and sold it for scrap \$11.90. A fun project just the same.
